Authority for approving payment for overtime, or the allowance of compensatory time in lieu of payment for overtime, is reserved only to those officials stated in agency delegations.

Overtime must be authorized prior to its performance except in cases of emergency, and overtime actually worked under this authorization must be recorded on the employee's Time and Attendance Report (T&A) Card, EPA Form 2565-1, 2, or 3.

4. Justification: LOWERLINE RADIATION SITE, NEW ORLEANS, LA – At the request of Louisiana Department of Environmental Quality and City of New Orleans and based on the imminent threats posed by the site, EPA is conducting a Superfund Removal Action to address Radium 226 (Ra-226) contamination identified by the Department of Energy during a sweep of the area surrounding the Super Dome. The source was found below two layers of pavement, mixed with the original road base of shells last dealt with in the 1940s or early 1950s. The post excavation showed gamma radiation levels at significant levels in the street, even though shielded by more than two feet of soil and pavement. EPA will provide oversight of cleanup contractors 11 hours per day until contamination is safely removal and disposed.
